## **Background**

1. The principal aim of the Waverley Community Partnership is to provide financial support 'for the ongoing revenue costs of voluntary and charitable organisations that are delivering high priority services for the benefit Waverley residents in partnership with the Council'.
2. Actively monitoring the performance of partner organisations that have been awarded funding from the Waverley Community Partnership is an integral part of the scheme.
3. Officers have worked in partnership with organisations that were funded in 2009/10 to report back on their performance and delivery of their partnership agreement from 1 April 2009 to 30 September 2009. Where a partner organisation has a nominated Member representative link officers invited Members to comment on the organisation's performance since April 2009. This information will be used as part of the assessment process when making recommendations on funding levels for 2010/11 and to highlight areas where officers could provide additional support to organisations.
4. Monitoring the performance of partner organisations shows how Waverley's money is being spent and demonstrates the impact of the funding. Performance monitoring also gives organisations the opportunity to learn and develop and showcase the work that they are doing.
