Appendix 1	Waverley Borough Council's 5-Year Housing Land Supply Position Statement – November 2024 (base date 01 April 2024)
-------------------	---

1 Introduction

- 1.1 This Statement of Common Ground on Housing Land Supply Matters ("SoCG HLS") comprises a full update of the previously agreed position from January 2024.
- 1.2 The parties are now in full agreement in terms of the 5-year housing land supply position and this document therefore sets out the level of agreement taking account of the Council's latest Housing Land Supply Position Statement published in November 2024 and the effect of the new National Planning Policy Framework (12 December 2024) ("the Framework 2024") on the land supply calculation.
- 1.3 It should be noted that this SoCG HLS replaces both the Part I and Part II documents that were prepared in November 2023 and January 2024 respectively. The contents of both of these earlier documents should now be disregarded.
- 1.4 This SoCG HLS has been prepared jointly by Neame Sutton Limited on behalf of the Appellant and Waverley Borough Council.
- 1.5 As a result of the extensive level of agreement reached in relation to 5-year housing land supply matters neither party considers it necessary to present formal evidence nor to interrogate housing land supply at the Inquiry.

2 Relevant Policy Context

(i) **National Planning Policy Framework 2024**

- 2.1 One of the overarching policy objectives set down by Government is for the planning system in England to significantly boost the supply of new housing through sustainable patterns of development¹.
- 2.2 In order to achieve this one of the key national policy tools employed by Government is the requirement placed on all Local Planning Authorities to identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their housing requirement set out in adopted strategic policies or against their local housing need where the strategic policies are more than five years old².
- 2.3 The Framework 2024 also requires the supply of specific deliverable sites to include an additional Buffer.
- 2.4 The Buffer is to be calculated by reference to the Housing Delivery Test ("HDT") measurement undertaken annually by Government and, depending on the applicability of the specific circumstances set out in Paragraph a) or b) will comprise either 5% or 20%.
- 2.5 Annex 2 to the Framework 2024 provides the definition of what constitutes a deliverable site for the purposes of housing land supply assessments, namely:

'Deliverable: *To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:*

- a) Sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).*
- b) Where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is*

¹ Paragraphs 7, 8 and 61 of the Framework 2024 specifically refer.

² Paragraph 78 of the Framework 2024.

identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years.'

- 2.6 In addition to the above the Framework 2024 provides a specific approach in relation to windfall sites³. Where a Council seeks to make an allowance for windfall sites as part of anticipated supply, there should be compelling evidence that they will provide a reliable source of supply.

(ii) National Planning Practice Guidance

- 2.7 The National Planning Practice Guidance ("PPG") provides further advice on what may constitute 'clear evidence' and states that further evidence to demonstrate the deliverability of Category b) sites may include:
- *'Current planning status – for example, on larger scale sites with outline or hybrid permission how much progress has been made towards approving reserved matters, or whether these link to a planning performance agreement that sets out the timescale for approval of reserved matters applications and discharge of conditions;*
 - *Firm progress being made towards the submission of an application – for example, a written agreement between the local planning authority and the site developer(s) which confirms the developers' delivery intentions and anticipated start and build-out rates;*
 - *Firm progress with site assessment work; or*
 - *Clear relevant information about site viability, ownership constraints or infrastructure provision, such as successful participation in bids for large-scale infrastructure funding or other similar projects.'*⁴

- 2.8 The PPG only provides examples of further evidence and is not intended to be a definitive list.

³ Paragraph 75 refers.

⁴ Housing and Economic Land Availability Assessment section of PPG – Paragraph 007 – Reference ID: 68-007-20190722

3 The Correct Five Year Period

- 3.1 The parties **agree** that the correct period for the purposes of assessing the 5 year supply is, at the time of preparing this Statement, 01 April 2024 – 31 March 2029.
- 3.2 It should be noted that the Inquiry for this Appeal is scheduled to commence on 08 April 2025, which will be in a new monitoring year. Whilst this is the case the Council will not be in a position to update its supply data until later in the year and therefore the position will, most likely, remain unchanged for the purposes of the Inquiry save for the base date.
- 3.3 In the event that the land supply position was to change either ahead of or during the Inquiry the parties will prepare an update to this SoCG as necessary.

4 The Correct Housing Requirement

(i) The Standard Method – The Starting Point

- 4.1 The current adopted LPP1 was adopted on 20 February 2018 and sets out the strategic policies for the Borough including setting the minimum Housing Requirement for the period 2013 – 2032 (11,210 dwellings or 590 dpa). The LPP1 has now passed its 5-year anniversary as at 20 February 2023 and has not yet been updated.
- 4.2 The Council took a report to its Executive on 07 February 2023 confirming that following require of the LPP1⁵ it required updating particularly in relation to the housing requirement.
- 4.3 A further report was taken to the Executive on 03 October 2023 confirming the scope and timetable for the new Local Plan, which is intended to replace both the LPP1 and the LPP2. The timetable agreed by the Executive is that the new Local Plan will be submitted in Autumn 2026 with adoption towards the end of 2027.
- 4.4 As a consequence the Standard Method calculation of LHN applies from 20 February 2023 and will apply until the replacement Local Plan is adopted.
- 4.5 The parties **agree** that the housing requirement is the current Standard Method calculation for LHN, which equates to **1,481 dpa**. This is the Standard Method calculation of LHN applied as at January 2025 following the updates made by Government on 12 December 2024.
- 4.6 Both parties **agree** that the Standard Method calculation of LHN is intended to take account of past under delivery and therefore no adjustment will be required in the 5-year housing land supply calculation.

(ii) The Correct Buffer to be Applied

- 4.7 Paragraph 78 of the Framework 2024 requires the inclusion of a buffer to the 5-year housing land supply calculation.
- 4.8 The Buffer is calculated by reference to the most recent HDT measurement published by Government, which in this case is the 2023 HDT published on 12 December 2024.

⁵ In accordance with Regulation 10A of The Town and Country Planning (Local Planning)(England) Regulations 2012

4.9 Where the HDT measurement is greater than 85% a 5% Buffer should be added to the housing requirement figure to ensure choice and competition in the market for land⁶.

4.10 The most recent HDT Measurement for Waverley is set out below:

Table 1: 2023 HDT Measurement for Waverley Borough

	2020/21	2021/22	2022/23	TOTAL
Homes Required	394	592	617	1603
Homes Delivered	682	823	969	2475
HDT Measurement				154%

4.11 The parties **agree** that the correct Buffer to apply is 5%.

(iii) Housing Requirement for the 5-Year Period

4.12 The housing requirement for the 5-year period 01 April 2024 – 31 March 2029 is therefore calculated as follows:

Table 2: Housing Requirement for the 5-Year Period

		Housing Requirement	
		Dwellings	Dpa
A	Annual housing requirement based on the standard methodology		1481
B	Housing requirement 01/04/2024 – 31/03/2029	7405	1481
C	Total five year housing requirement 01/04/2024 – 31/03/2029 plus 5% buffer	7775	1555

⁶ Paragraph 78 a) refers.

5 The Agreed 5-Year Housing Land Supply Position

5.1 The parties **agree** that the following sources of supply are identified by the Council for the 5-year period:

Table 3: Housing Supply Sources:

	Supply Source	Category
A	Outstanding Permissions Small and Medium Sites	A
B	Outstanding Permissions Large Sites	A (where FULL or all RM Consents in place) B (where OUT Consent in place)
C	Sites with a Resolution to Permit	B
D	Small Site Windfalls	B

5.2 Based on the above supply sources the parties **agree** that the Council's housing land supply position is as follows:

Table 4: Agreed 5-Year Housing Land Supply Position

	Requirement	Dwellings
A	Annual housing requirement based on the standard methodology	1481
B	Housing requirement 01/04/2024 – 31/03/2029	7405
C	Total five year housing requirement 01/04/2024 – 31/03/2029	7775

	Supply Source	Dwellings
A	Outstanding planning permissions small & medium sites	452
B	Outstanding planning permissions large sites	1155
C	Sites with Resolution to Permit	247
D	Small Site Windfalls	144
E	TOTAL SUPPLY	1998

	Supply
Surplus/Shortfall	-5777
Supply Expressed in Years	1.28

- 5.3 It should be noted that the Council's position set out in the Housing Land Supply Position Statement published in November 2024 was based on the previous Standard Method calculation of LHN and resulted in a position of 2.68 years. The Government has since revised the Standard Method calculation of LHN, which is reflected in the agreed position in Table 4 above.

6 The Agreed Policy Consequences of the 5-Year Housing Land Supply Position

6.1 The parties **agree** the following:

1. The strategic policies in the adopted Local Plan are over 5-years old as at 20 February 2023;
 2. The adopted Local Plan has been reviewed by the Council and the strategic policies have been found to require updating. A timetable for a new Local Plan to replace both the LPP1 and LPP2 is now in place;
 3. The Council cannot demonstrate a 5-year housing land supply against either the previous Standard Method calculation of LHN or the current Standard Method calculation of LHN; and,
 4. Paragraph 11 d) is therefore engaged in the determination of this Appeal as a result of the 5-year housing land supply position.

1. Introduction

- 1.1 The purpose of this document is to report on progress that is being made towards meeting Waverley's housing need. It sets out the position on five year housing land supply in the Borough and covers the period from 1 April 2024 to 31 March 2029. The document has a base date of 1 April 2024. The information in the document represents the most up-to-date information that is available at the time of publication. This Five Year Housing Land Supply Position Statement replaces the Five Year Housing Land Supply Position Statement 2023 which covered 1 April 2023 to 31 March 2028. The Five Year Housing Land Supply Position Statement reassesses the Borough's housing land supply position in accordance with the requirements set out in the National Planning Policy Framework (NPPF) published in December 2023 and the Planning Practice Guidance.

2. The Five Year Housing Supply Position

- 2.1 Paragraph 77 of the NPPF states that, unless an adopted plan is less than 5 years old (which is not the case in Waverley):

“.... local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide either a minimum of five years' worth of housing¹, or a minimum of four years' worth of housing if the provisions in paragraph 226 apply. The supply should be demonstrated against either the housing requirement set out in adopted strategic policies, or against the local housing need where the strategic policies are more than five years old². Where there has been significant under delivery of housing over the previous three years³, the supply of specific deliverable sites should in addition include a buffer of 20% (moved forward from later in the plan period).”

- 2.2 The Waverley Borough Local Plan Part 1: Strategic Policies and Sites (LPP1) was adopted on 20th February 2018. Policy ALH1 of LPP1 makes provision for at least 11,210 net additional homes in the period 2013 to 2032, equivalent to 590 dwellings per annum. As the Borough Council adopted its strategic policies (i.e. LPP1) 5 years ago the Five Year Housing Land Supply Position Statement uses a housing requirement based on the local housing

¹ For the avoidance of doubt, a five year supply of deliverable sites for travellers – as defined in Annex 1 to Planning Policy for Traveller Sites – should be assessed separately, in line with the policy in that document.

² Unless these strategic policies have been reviewed and found not to require updating. Where local housing need is used as the basis for assessing whether a five year supply of specific deliverable sites exists, it should be calculated using the standard method set out in national planning guidance.

³ This will be measured against the Housing Delivery Test, where this indicates that delivery was below 85% of the housing requirement. For clarity, authorities that are not required to continually demonstrate a 5 year housing land supply should disregard this requirement

need that is calculated by the standard methodology set out in the PPG. This is currently 710 dwellings per annum for Waverley.

- 2.3 Table 1 below demonstrates the amount of housing required within Waverley for five years from 1 April 2024. Following the publication of the Housing Delivery Test results in December 2023, the Council has to apply a 5% buffer to its housing requirement. The 5% buffer is shown in Table 1. On this basis there is a total housing requirement of 3,728 dwellings for the five year period (the equivalent to 746 homes per annum).
- 2.4 In accordance with the definition in paragraph 77 of the NPPF, Table 2 below sets out the number of net new homes that are deliverable in the five years between 1 April 2024 and 31 March 2029. The council can demonstrate that a total of 1,998 homes are deliverable within this period, equating to 2.68 years of housing land supply.

Table 1 – The Housing Requirement

		Number of Dwellings	Average Per Annum
A	Annual housing requirement based on the standard methodology	710	710
B	Housing requirement 01/04/2024 – 31/03/2029	3,550	710
C	Total five year housing requirement 01/04/2024-31/03/2029 plus 5% buffer	3,728 ⁴	746 ⁵

7.2 The housing supply at 1 April 2024 is set out in Table 2.

Table 2 – The Housing Supply

		Number of Dwellings	Average per Annum
A	Outstanding planning permissions on small and medium sites (net dwellings on sites of 9 dwellings or less) as of 01/04/2024	452	90
B	Outstanding planning permissions on large sites (10 or more net dwellings) as at 01/04/2024 including prior approvals	1,155	231
C	Sites with a Resolution to Permit	247	49
D	Estimated dwellings from small sites windfalls from 01/04/2024 to 31/03/2029 (i.e. on sites where less than five net new homes can be delivered)	144	72

⁴ The correct figure is 3,727.5 but for the purposes of Table 1 the figure has been rounded up.

⁵ The correct figure is 745.5 but for the purposes of Table 1 has been rounded up.

		Number of Dwellings	Average per Annum
E	Total housing supply identified for 01/04/2024 to 31/03/2029	1,998	
Number of years' worth of supply			2.68

3. Housing Requirement

a) Objectively Assessed Need

3.1 The housing requirement of 710 dwellings per annum is established using the standard methodology.

b) Undersupply from Previous Years

3.2 The shortfall from earlier in the plan period is not included as Paragraph 011 Reference ID: 2a-011-20190220 of the NPPG confirms that the affordability ratio used to calculate the standard method takes into account affordability within the local authority area and “therefore it is not a requirement to specifically address under-delivery separately”.

c) The Additional Buffer

3.3 Paragraph 74 of the NPPF (2021) states:

“Strategic policies should include a trajectory illustrating the expected rate of housing delivery over the plan period, and all plans should consider whether it is appropriate to set out the anticipated rate of development for specific sites. Local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years’ worth of housing against their housing requirement set out in adopted strategic policies⁶, or against their local housing need where the strategic policies are more than five years old⁷. The supply of specific deliverable sites should in addition include a buffer (moved forward from later in the plan period) of:

- a) 5% to ensure choice and competition in the market for land; or*
- b) 10% where the local planning authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or*

⁶ “For the avoidance of doubt, a five year supply of deliverable sites for travellers – as defined in Annex 1 to Planning Policy for Traveller Sites – should be assessed separately, in line with the policy in that document”.

⁷ “Unless these strategic policies have been reviewed and found not to require updating. Where local housing need is used as the basis for assessing whether a five year supply of specific deliverable sites exists, it should be calculated using the standard method set out in national planning guidance”.

recently adopted plan⁸, to account for an fluctuations in the market during that year; or

- c) 20% where there has been significant under delivery of housing over the previous three years, to improve the prospect of achieving the planned supply⁹.*

3.4 The Housing Delivery Test result for Waverley, published by DCLG in December 2023, puts Waverley at 139%, meaning that a 5% buffer is applied. As a result the overall housing requirement for the five years is 3,728 (i.e. 3,550 + 5%).

⁸ For the purposes of paragraphs 73b and 74 a plan adopted between 1 May and 31 October will be considered 'recently adopted' until 31 October of the following year; and a plan adopted between 1 November and 30 April will be considered 'recently adopted' until 31 October in the same year."

⁹ From November 2018, this will be measured against the Housing Delivery Test, where this indicates that delivery was below 85% of the housing requirement."

4. Housing Supply

a) Assessing Deliverability

- 4.1 To be included in the five year housing supply new homes have to be on sites that are deliverable as defined in the glossary of the NPPF (2023) and in the NPPG.
- 4.2 To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:
- a) Sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years, (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).
 - b) Where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years.
- 4.3 In accordance with the above definition the Council has assessed the deliverability of housing in the Borough from the following sources:
- Net new dwellings with outstanding planning permission on 1 April 2024
 - Net new dwellings on sites where the Council has resolved to grant planning permission subject to the signing of a S.106 agreement
 - Windfall development on small sites¹⁰
- 4.4 The Council has assessed the deliverability of homes on sites in all the above categories. In carrying out an assessment of deliverability it has:
- (1) Considered the policy approach set out in the NPPF and NPPG.
 - (2) Taken account of information provided to the Council by landowners and/or promoters of sites that are included.
 - (3) Taken account of progress with any relevant planning applications, discharging of conditions etc.
 - (4) Local evidence from developers on lead-in times and delivery rates for different types of sites.

¹⁰ Small sites are defined as sites delivering a net increase of 1 -4 dwellings, medium sized sites deliver a net increase of 5 -9 dwellings and large sites deliver 10+ net dwellings.

- 4.5 Evidence documents on the deliverability of sites included within the projected five year housing supply can be found on the Council's website at <https://www.waverley.gov.uk/Services/Planning-and-building/Planning-strategies-and-policies/Housing-supply-and-delivery/Five-year-housing-supply>

b) Small and Medium Sites with Outstanding Planning Permission

- 4.6 All small and medium sites with outstanding planning permission (less than net 10 dwellings) are deliverable within the five years from 1 April 2024 in line with the definition of the term deliverable in the NPPF.
- 4.7 Although the housing trajectory for Local Plan Part 1 applies a 10% lapse rate to this source of housing this was considered important in demonstrating that the plan could continually meet five years' worth of housing supply each year going forward. However, the Local Plan Inspector examining the plan considered that as the NPPF did not require a blanket discount of this scale the lapse rate "may therefore lead to an unnecessarily pessimistic assessment of the 5 year supply position". The Council's approach of not including a lapse rate has been supported in an appeal decision for Land at Lower Weybourne Lane, Farnham¹¹. Therefore, for the purposes of this five year housing supply position statement a lapse rate is not applied. **452** new homes on sites of net 9 dwellings or less with outstanding planning permission have been assessed as deliverable. Details of those sites are attached at **Appendix 1**.

c) Large Sites with Outstanding Planning Permission

- 4.8 Sites of 10 or more dwellings are defined as major development sites in the NPPF glossary of terms. The Council has individually assessed the delivery of all sites of 10 or more dwellings with planning permission. In assessing the deliverability of the large sites with planning permission, the Council has taken into account the NPPF definition that states that all sites with detailed planning permission should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years. The Council has taken the view that all of the large sites that have a full planning permission are deliverable within the relevant five year period. In considering deliverability of sites within this category, the Council has revisited sites and considered the most up to date evidence to assess delivery on each site.
- 4.9 The Council has also taken into account the progress made through different stages of the planning process and information received directly from site owners or promoters. It will be noted that a number of these sites have progressed to detailed planning approval stage and many have already commenced on site.

¹¹ Appeal reference APP/R3650/W/20/3262641

- 4.10 It is acknowledged that some of the large sites only have outline planning permission. In accordance with the NPPF definition the Council has assessed these sites to determine whether there is evidence to show that there is a realistic prospect that some or all of the approved dwellings will be delivered within five years. In recent years Dunsfold Park has been included within the Council's Five Year Housing Land Supply Position Statement and the Council is currently awaiting an updated development trajectory from the site promoters. The site has been discounted from the Council's five year housing land supply by Planning Inspectors in recent appeals and for this reason, the Council has decided to exclude the site from the five year supply until there is more certainty about the timescales for delivery of housing on the site.
- 4.11 As the sites have been assessed individually, no discount has been applied generally to this source of housing land supply. Where the assessment of the individual site has indicated that houses will not be delivered within the 5 year period, the Council has not counted these. It has been concluded that **1,155** homes on sites of 10 or more net additional dwellings, with outstanding planning permission, are capable of being delivered by 31 March 2029. Details of the large sites with planning permission considered to be deliverable in whole or in part are included in the table attached at **Appendix 2**.

d) Sites with a Resolution to Permit

- 4.12 As of 1 April 2024 there were **247** homes from this source, arising from three sites, that can contribute to the five year housing land supply. Details of the sites and the reasons why the Council considers them to be deliverable, are set out in the table attached at **Appendix 3**.

e) Contribution from Small Windfall Sites

- 4.13 Paragraph 71 of the NPPF says that:

“Where an allowance is to be made for windfall sites as part of anticipated supply, there should be compelling evidence that they will provide a reliable source of supply. Any allowance should be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends. Plans should consider the case for setting out policies to resist inappropriate development of residential gardens, for example where development would cause harm to the local area.”

- 4.14 Windfall is defined in the glossary of the Framework on page 73 as “sites not specifically identified in the development plan”.
- 4.15 Paragraph 048 of the PPG also requires an annual position statement of five year land supply to assess the permissions granted for windfall development by year and how this compares with the windfall allowance.

- 4.16 The Council considers that a windfall allowance in the five year housing supply from sites of less than five dwellings (small windfall sites) is justified as the Council's Land Availability Assessment (LAA) only identifies sites available for housing of five or more new dwellings, and historically sites of less than five new homes have contributed significantly to new housing in the Borough. The potential contribution of the number of new homes from small windfall sites to the overall supply of housing is 144 dwellings and is based on the annual average of past trends from this source since 2003. Details are set out in the table attached as **Appendix 4**.
- 4.17 It is expected that small sites of less than five dwellings will continue to come forward and contribute to the Borough's supply of housing. The contribution is, however, only considered appropriate for the final two years of the five year housing supply only (i.e. 2027/28 to 2028/29). This is to avoid any double counting because windfall sites contributing within the first three years will often have already received planning permission.
- 4.18 There is no contribution to the five year housing supply from windfall sites that deliver five or more net homes (medium and large windfalls). This is because the LAA has tried to identify all new homes that can be delivered on sites of more than 5 dwellings. These sites would also be expected to be allocated in the emerging Local Plan and Neighbourhood Plans. However, it is likely that other sites will be capable of delivering five or more net new homes in the next five years which the Council is currently unaware of.

Appendix 1 – Small and Medium Sites with Outstanding Planning Permission

Table 3 – Small and Medium Sites with Outstanding Planning Permission at the Base Date

Site Location Description	Parish	Area Ha	Decision Date	Main Permission	Approval Type	Latest Permission	Gross Yield	Net Yield	Commenced	Outstanding Net	Permission Expires

[4] Planning permission was granted under WA/2020/2123 for 52 C2 units on the site. This equates to 29 C3 units based on the formula in the Housing Delivery Test Rulebook.													
[5] Full planning permission was granted for a 74 bed care home (C2 use). Applying the ratio for communal accommodation set out in the Housing Delivery Test Measurement Rulebook equates to 39 C3 dwellings.

TOWN AND COUNTRY PLANNING ACT 1990 (as amended) – WA/2023/01714

Waverley Borough Council acting as Local Planning Authority under the provisions of Part III of the Town and Country Planning Act, 1990 (as amended), **DO HEREBY GRANT** planning permission for the development specified in the form of application for such permission, deposited by you with the Council on 04/08/2023 and described in the First Schedule, subject to the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended), and the conditions and reasons specified in the Second Schedule.

NOTE: The effect of the Section 91 of the Town and Country Planning Act 1990 (as amended) is that the development for which permission is hereby granted shall be begun not later than the expiration of three years beginning with the date of this permission.

FIRST SCHEDULE

Erection of 27 dwellings (affordable houses) and associated works including a vehicular, cycle and pedestrian accesses, open space and landscaping.

LAND CENTRED COORDINATES 496830 146100 SOUTH EAST OF BINSCOMBE
GODALMING

SECOND SCHEDULE

The development shall be carried out in accordance with the approved plans. No material variation from these plans shall take place unless otherwise first agreed in writing with the Local Planning Authority.

Reason:

In order that the development hereby permitted shall be fully implemented in complete accordance with the approved plans and to accord with Policies ST1, ICS1, TD1, HA1, NE1, NE2, CC1, CC2 and CC4 of the Local Plan 2018 (Part 1), Policies DM1, DM2, DM4, DM5, DM6, DM7, DM9, DM11, DM20 and DM21 of the Local Plan 2023 (Part 2) and Policies GOD5, GOD6, GOD9, GOD13 and GOD16 of the Godalming and Farncombe Neighbourhood Plan (April 2019).

2. Condition:

No development shall take place until details of the materials to be used in the construction of the external surfaces of the development hereby permitted have been submitted to and approved in writing by the Local Planning Authority. These should be in accordance with drawing no. 22.1618.203 F unless otherwise agreed by the Local Planning Authority. Development shall be carried out in accordance with the approved details.

Reason:

In the interest of the heritage assets, character and amenity of the area in accordance with Policies TD1 and HA1 of the Local Plan 2018 (Part 1), Policies DM4, DM20 and DM21 of the Local Plan 2023 (Part 2) and Policy GOD5 of the Godalming and Farncombe Neighbourhood Plan (April 2019).

3. Condition:

The development hereby permitted shall not be occupied until a scheme for the storage of refuse and recycling has been submitted to and approved in writing by the Local Planning Authority. The scheme shall be carried out and provided in full in accordance with the approved details prior to first occupation of the development and the refuse and recycling storage facilities shall thereafter be retained for use at all times.

Reason:

To ensure the provision of satisfactory facilities for the storage of refuse and recycling in accordance with Policies TD1 and CC2 of the Local Plan 2018 (Part 1), Policy DM4 of the Local Plan 2023 (Part 2) and Policy GOD5 of the Godalming and Farncombe Neighbourhood Plan (April 2019).

4. Condition:

No extension, enlargement or other alteration of the dwellinghouses as provided for within Schedule 2, Part 1, Classes A, B, C and D of the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended (or any order revoking and re-enacting that Order with or without modification) other than that expressly authorised by this permission shall be carried out without planning permission obtained from the Local Planning Authority.

Reason:

The Local Planning Authority considers that further development could cause detriment to the character and appearance of the area, including the setting of heritage assets, and for this reason would wish to control any future development to comply with Policies TD1 and HA1 of the Local Plan 2018 (Part 1), Policies DM4, DM20 and DM21 of the Local Plan 2023 (Part 2) and Policy GOD5 of the Godalming and Farncombe Neighbourhood Plan (April 2019).

5. Condition:

The hard surfaces hereby approved shall be made of porous and / or permeable materials and retained thereafter or provision shall be made and retained thereafter to direct run-off water from the hard surface to a permeable or porous area or surface within the curtilage of the site.

Reason:

To reduce the risk of flooding and pollution and increase the level of sustainability of the development in accordance with Policies CC1 and CC4 of the Local Plan 2018 (Part 1) and Policies DM1 and DM6 of the Local Plan 2023 (Part 2).

6. Condition:

No tree shown as retained on the approved drawings shall be cut down, uprooted, destroyed, pruned, cut or damaged in any manner during the development phase and thereafter within 5 years from the date of occupation of the building for its permitted use, other than in accordance with the approved plans and particulars or as may be permitted by prior approval in writing from the Local Planning Authority. Any trees or plants which within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species.

Reason:

To enhance the appearance of the development in the interest of the visual amenities of the area, to provide ecological, environmental and biodiversity benefits and to maximise the quality and usability of open spaces within the development in accordance with Policies NE1 and NE2 of the Local Plan 2018 (Part 1) and Policies DM4, DM6 and DM11 of the Local Plan 2023 (Part 2).

7. Condition:

Prior to the first occupation of the development hereby permitted, a scheme for landscaping shall be submitted to and approved in writing by the Local Planning Authority. The approved landscaping shall be implemented in accordance with the approved details in the first planting season after completion or first occupation of the development, whichever is the sooner. The scheme shall include the following:

- a. details of all hard and soft surfacing to include type, position, design, dimensions and materials; and
- b. a schedule detailing sizes and numbers/densities of all proposed trees/plants including details of tree pit design, use of guards or other protective measures and confirmation of location, species and sizes, nursery stock type, supplier and defect period.

Any trees or plants which within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species.

Reason:

To enhance the appearance of the development in the interest of the visual amenities of the area in accordance with Policies TD1, NE1, NE2, CC1, CC2 and CC4 of the Local Plan Part 1 (2018), Policies DM1, DM4, DM5, DM6, DM7 and DM11 of the Local Plan 2023 (Part 2) and Policies GOD5 and GOD16 of the Godalming and Farncombe Neighbourhood Plan (April 2019).

8. Condition:

The development hereby permitted shall not be occupied until drawings detailing the positions, height, design, materials and type of all proposed boundary treatments shall have been submitted to and approved in writing by the Local Planning Authority. The boundary treatments shall be provided in accordance with the approved details prior to occupation of the development and shall thereafter be retained at all times.

Reason:

To enhance the appearance of the development in the interest of the visual amenities of the area in accordance with Policies TD1 and HA1 of the Local Plan Part 1 (2018), Policies DM1, DM4, DM5, DM6, DM7, DM20 and DM21 of the Local Plan 2023 (Part 2) and Policy GOD5 of the Godalming and Farncombe Neighbourhood Plan (April 2019).

9. Condition:

The development hereby permitted shall not be commenced (other than works to trees) until details of the design of a surface water drainage scheme in line with the Flood Risk Assessment and Drainage Strategy Issue 01 dated 05/06/2023 have been submitted to and approved in writing by the Local Planning Authority. The required drainage details shall include:

- a) Evidence that the proposed final solution will effectively manage the 1 in 30 (+35% allowance for climate change) & 1 in 100 (+45% allowance for climate change) storm events and 10% allowance for urban creep, during all stages of the development. If infiltration is deemed unfeasible, associated discharge rates and storage volumes shall be provided using a maximum discharge rate of 0.8 l/s.
- b) Detailed drainage design drawings and calculations to include: a finalised drainage layout detailing the location of drainage elements, pipe diameters, levels, and long and cross sections of each element including details of any flow restrictions and maintenance/risk reducing features (silt traps, inspection chambers, etc).
- c) A plan showing exceedance flows (i.e. during rainfall greater than design events or during blockage) and how property on and off site will be protected from increased flood risk.
- d) Details of drainage management responsibilities and maintenance regimes for the drainage system.
- e) Details of how the drainage system will be protected during construction and how runoff (including any pollutants) from the development site will be managed before the drainage system is operational.

Reason:

To ensure that the principles of sustainable drainage are incorporated into this proposal so that the final drainage design does not increase flood risk on or off site in accordance with the National Non-Statutory Technical Standards for SuDS, Policies CC1 and CC4 of the Local Plan 2018 (Part 1) and Policy DM1 of the Local Plan 2023 (Part 2).

10. Condition:

Prior to the first occupation of the development, a verification report carried out by a qualified drainage engineer must be submitted to and approved by the Local Planning Authority. This must demonstrate that the surface water drainage system has been constructed as per the agreed scheme (or detail any minor variations), provide the details of any management company and state the national grid reference of any key drainage elements (surface water attenuation devices/areas, flow restriction devices and outfalls), and confirm any defects have been rectified.

Reason:

To ensure the drainage system is designed to meet the National Non-Statutory Technical Standards for SuDS, Policies CC1 and CC4 of the Local Plan 2018 (Part 1) and Policy DM1 of the Local Plan 2023 (Part 2).

11. Condition:

Prior to the commencement of the development hereby approved (including all preparatory work), a scheme for the protection of the retained trees, in accordance with BS 5837:2012, including a Tree Protection Plan (TPP) and an Arboricultural Method Statement (AMS) shall be submitted to and approved in writing by the Local Planning Authority. The development thereafter shall be implemented in strict accordance with the approved details.

Reason:

As this matter is fundamental to protecting the trees which are to be retained on the site during construction works in the interest of the visual amenities of the area in accordance with Policies NE1 and NE2 of the Local Plan 2018 (Part 1) and Policies DM4, DM6 and DM11 of the Local Plan 2023 (Part 2).

12. Condition:

Prior to the first occupation of the development hereby approved, the following highway improvements shall be provided:

- a) Dropped kerbs and tactile paving at the Green Lane priority junction with Copse Side
 - b) Dropped kerbs and tactile paving for pedestrians to cross Copse Side adjacent to the link between Copse side and Footpath 1.
 - c) A virtual footway on Binscombe, including an uncontrolled crossing adjacent to the medical centre to provide a safer route for pedestrians
- in accordance with a scheme to be submitted to and approved in writing by the Local Planning Authority and to meet the County Highway Authority's safety and technical requirements.

Reason:

To promote sustainable forms of transport in accordance with Policies ST1 and CC2 of the Local Plan 2018 (Part 1) and Policies DM6 and DM9 of the Local Plan 2023 (Part 2).

13. Condition:

The development hereby permitted shall not be occupied until details of secure cycle parking facilities for the occupants of, and visitors to, the development have been submitted to and approved in writing by the Local Planning Authority. The approved facilities shall be fully implemented and made available for use prior to the first occupation of the development and shall thereafter be retained for use at all times.

Reason:

To ensure that satisfactory facilities for the parking of cycles are provided and to encourage travel by means other than private motor vehicles in accordance with Policies ST1 and CC2 of the Local Plan 2018 (Part 1) and Policy DM9 of the Local Plan 2023 (Part 2).

14. Condition:

The development hereby approved shall not be first occupied unless and until space has been laid out within the site in accordance with drawing no. 22.1618.100 M for vehicles to be parked and for vehicles to turn so that they may enter and leave the site in forward gear. The

vehicle parking areas shown on the approved plans shall not be used otherwise than for the parking of private motor vehicles and motorcycles belonging to the occupants of and visitors to the development hereby approved and shall be maintained so as to ensure their availability for such use at all times.

Reason:

To ensure that adequate parking provision is retained in accordance with Policy ST1 of the Local Plan 2018 (Part 1), Policy DM9 of the Local Plan 2023 (Part 2) and Policy GOD6 Godalming and Farncombe Neighbourhood Plan (April 2019).

15. Condition:

Prior to commencement of the development, details of a construction access shall be submitted to and approved in writing by the Local Planning Authority, in consultation with the County Highway Authority, and implemented in accordance with the approved details.

The development hereby permitted shall not be first occupied until the proposed vehicular access and footways have been constructed on site in accordance with drawing no. 22.1618.100 M and provided with visibility splays in accordance with drawing no. SMA-7032-001 A. Thereafter, they shall be retained as approved with no obstruction to the visibility splays between 0.6m and 2.0m above ground level

Reason:

To ensure that suitable access provision is provided within, to and from the development in accordance with Policy ST1 of the Local Plan 2018 (Part 1) and Policy DM9 of the Local Plan 2023 (Part 2).

16. Condition:

The development hereby permitted shall not be first occupied until details of disabled car parking provision for the occupants of, and visitors to, the development has been submitted to and approved in writing by the Local Planning Authority. The approved scheme shall be fully implemented and made available for use prior to the first occupation of the development hereby permitted and shall thereafter be retained for use at all times.

Reason:

To ensure the development provides for the needs of disabled occupiers and visitors to the site in accordance with Policy ST1 of the Local Plan 2018 (Part 1) and Policies DM4 and DM9 of the Local Plan 2023 (Part 2).

17. Condition:

The development hereby permitted shall not be occupied until the dwellings hereby permitted have been completed in compliance with Building Regulations Optional Requirement M4(2) (accessible and adaptable dwellings) and shall be retained in compliance with such requirement thereafter. Evidence of compliance shall be notified to the building control body appointed for the development in the appropriate Full Plans Application, or Building Notice, or Initial Notice to enable the building control body to check compliance.

Reason:

To ensure the development provides for the needs of disabled occupiers and visitors to the site in accordance with Policy AHN3 of the Local Plan 2018 (Part 1) and Policy DM4 of the Local Plan 2023 (Part 2).

18. Condition:

The development hereby approved shall not be first occupied unless and until the dwellings have been completed such to meet the requirement for a maximum of 110 litres of water per person per day.

Reason:

To ensure that the development is sustainable and makes efficient use of water to comply with Policy CC2 of the Local Plan (Part 1) 2018 and Policy GOD13 of the Godalming and Farncombe Neighbourhood Plan (April 2019).

19. Condition:

Prior to first occupation, a "lighting design strategy for biodiversity" shall be submitted to and approved in writing by the Local Planning Authority. The strategy shall show how and where external lighting will be installed (through the provision of appropriate lighting contour plans and technical specifications) so that it can be clearly demonstrated that areas to be lit will not disturb or prevent sensitive species using their territory or having access to their breeding sites and resting places.

All external lighting shall be installed in accordance with the specifications and locations set out in the strategy, and these shall be maintained thereafter in accordance with the strategy.

Reason:

Many species active at night (e.g. bats and badgers) are sensitive to light pollution. The introduction of artificial light might mean such species are disturbed and / or discouraged from using their breeding and resting places, established flyways or foraging areas. Such disturbance can constitute an offence under relevant wildlife legislation and is required in accordance with Policies NE1 and NE2 Local Plan (Part 1) 2018 and Policy DM1 of the Local Plan 2023 (Part 2).

20. Condition:

No development shall take place until a Construction Environmental Management Plan (CEMP) has been submitted to and approved in writing by the Local Planning Authority. They shall include:

- (i) The forecasted programme of works for the development hereby permitted.
- (ii) A scheme setting out how the contractors will minimise disturbance to neighbours regarding issues such as noise and dust management, vibration, site traffic and deliveries to and from the site.
- (iii) Details of proposed site accesses and any pitlanes or loading / unloading areas within the highway, which shall be sufficient to allow all vehicles to enter and exit these in forward gear without reversing on the highway.
- (iv) Details of hours of construction including all associated vehicular movements.

- (v) Details of the construction compound, and storage areas.
- (vi) A plan showing construction traffic routes and the timings, type and the number of vehicles forecast to use these.
- (vii) Details of measures to protect highway assets, including boundary hoarding behind any visibility zones, and to mitigate impacts on public transport and emergency services, and provide for their continued operation during the works.
- (viii) Details of vehicle cleaning facilities to prevent mud and dirt being trafficked onto the highway from the site or being washed onto it.
- (ix) Details of any temporary traffic management and signage along the construction routes, at site access and elsewhere in the vicinity of the site.
- (x) Details of site personnel, operatives and visitor parking.
- (xi) Mitigation methods for reptiles.

The construction works shall be carried out in accordance with the approved CEMP and no part of the development hereby approved shall be occupied until the approved highway works have been carried out in accordance with the agreed details.

Reason:

As this matter is fundamental to the protection of neighbouring amenity and highway safety throughout development works in accordance with Policies ST1 and CC2 and Policies DM1 and DM9 of the Local Plan 2023 (Part 2).

21. Condition:

If during construction, contamination not previously identified is found to be present at the site then no further development shall be carried out until a method statement identifying and assessing the risk and proposing remediation measures, together with a programme for such works, shall be submitted to the Local Planning Authority for approval in writing. The remediation measures shall be carried out as approved and in accordance with the approved programme.

Reason:

To safeguard the health of future residents of the site in accordance with Policy DM1 of the Local Plan 2023 (Part 2).

22. Condition:

No development shall take place (including any ground works, site clearance) until a biodiversity method statement, including a net gain, has been submitted to an approved in writing by the Local Planning Authority. The content of the method statement shall include the:

- a) purpose and objectives for the proposed works;
- b) detailed design(s) and/or working method(s) necessary to achieve stated objectives (including, where relevant, type and source of materials to be used);
- c) extent and location of proposed works shown on appropriate scale maps and plans;
- d) timetable for implementation, demonstrating that works are aligned with the proposed phasing of construction;
- e) persons responsible for implementing the works;
- f) initial aftercare and long-term maintenance (where relevant);
- g) disposal of any wastes arising from the works.

The works shall be carried out in accordance with the approved details in the first planting season after the approval of the biodiversity method statement and shall be retained in that manner thereafter.

Reason:

To protect habitats and species identified in the ecological surveys from adverse impacts during construction in accordance with Policies NE1 and NE2 and Policy DM1 of the Local Plan 2023 (Part 2).

23. Condition:

Prior to the commencement of development, a landscape and ecological management plan (LEMP) should be submitted to, and be approved in writing by, the Planning Authority. The content of the LEMP should include the following:

- a) description and evaluation of features to be managed (habitats; species, planting plans, taking advice from the applicant's ecologist)
- b) ecological trends and constraints on site that might influence management;
- c) aims and objectives of management;
- d) preparation of a work schedule (including an annual work plan capable of being rolled forward over a five-year period;
- e) details of the body or organisation responsible for implementation of the plan;
- f) on-going monitoring and remedial measures.

The LEMP shall also include details of the legal and funding mechanism(s) by which the long-term implementation of the plan will be secured by the developer with the management body(ies) responsible for its delivery. The plan should also set out (where the results from monitoring show that conservation aims and objectives of the LEMP are not being met) how contingencies and/or remedial action will be identified, agreed and implemented so that the development still delivers the fully functioning biodiversity objectives of the originally approved scheme.

The LEMP shall be implemented in full accordance with the approved details.

Reason:

In the interests of preserving nature conservation in accordance with Policies NE1 and NE2 and Policy DM1 of the Local Plan 2023 (Part 2).

24. Condition:

Prior to the first occupation of the development hereby approved a detailed scheme for the proposed Local Equipped Area for Play (LEAP) shall be submitted to and approved in writing to the Local Planning Authority. The approved scheme shall be implemented in strict accordance with the approved details, prior to the first occupation of the development. The scheme shall include details of the equipment to be provided, its maintenance and inspections to be carried out by a qualified Inspector to check the quality of the equipment.

Reason:

To ensure that appropriate, safe and high quality play space is provided within the site in

accordance with the Fields in Trust standard and Policy LRC1 of the Local Plan 2018 (Part 1).

Yours faithfully,

Claire Upton-Brown
Assistant Director of Planning Development

Informatives:

1. Community Infrastructure Levy (CIL)- - The development hereby permitted is CIL liable. - - 'CIL Form 6: Commencement Notice' must be received by the Council prior to the commencement of development. Commencement of development is defined in Regulation 7 of the CIL Regulations 2010 (as amended).- - Failure to adhere to the CIL Regulations and commencing work without notifying the Council could forfeit any rights you have to exemptions, payment by instalments and you may also incur surcharges.- - For further information see our webpages (www.waverley.gov.uk/CIL) or contact CIL@waverley.gov.uk
2. The applicant is advised that advice regarding permeable and porous hard surfaces can be found in the Department of Communities and Local Government document 'Guidance on the permeable surfacing of front gardens'.
3. If proposed site works affect an Ordinary Watercourse, Surrey County Council as the Lead Local Flood Authority should be contacted to obtain prior written consent.
4. If proposed works result in infiltration of surface water to ground within a Source Protection Zone the Environment Agency will require proof of surface water treatment to achieve water quality standards.
5. Sub ground structures should be designed so they do not have an adverse effect on groundwater.
6. The developer is reminded that it is an offence to allow materials to be carried from the site and deposited on or damage the highway from uncleaned wheels or badly loaded vehicles. The Highway Authority will seek, wherever possible, to recover any expenses incurred in clearing, cleaning or repairing highway surfaces and prosecutes persistent offenders. (Highways Act 1980 Sections 131, 148, 149).
7. Section 59 of the Highways Act permits the County Highway Authority to charge developers for damage caused by excessive weight and movements of vehicles to and from a site. The County Highway Authority will pass on the cost of any excess repairs compared to normal maintenance costs to the applicant/organisation responsible for the damage.
8. The developer would be expected to agree a programme of implementation of all necessary statutory utility works associated with the development, including liaison between Surrey

County Council Streetworks Team, the relevant utility companies and the developer to ensure that where possible the works take the route of least disruption and occurs at least disruptive times to highway users.

9. It is the responsibility of the developer to ensure that the electricity supply is sufficient to meet future demands and that any power balancing technology is in place if required. Electric Vehicle Charging Points shall be provided in accordance with the Surrey County Council Vehicular, Cycle and Electric Vehicle Parking Guidance for New Development 2022.
10. The County Highway Authority has no objection to the proposed development, subject to the above conditions but, if it is the applicant's intention to offer any of the roadworks included in the application for adoption as maintainable highways, permission under the Town and Country Planning Act should not be construed as approval to the highway engineering details necessary for inclusion in an Agreement under Section 38 of the Highways Act 1980. Further details about the post-planning adoption of roads may be obtained from the Transportation Development Planning Team at Surrey County Council.
11. Notwithstanding any permission granted under the Planning Acts, no signs, devices or other apparatus may be erected within the limits of the highway without the express approval of the County Highway Authority. It is not the policy of the County Highway Authority to approve the erection of signs or other devices of a non-statutory nature within the limits of the highway.
12. The permission hereby granted shall not be construed as authority to obstruct the public highway by the erection of scaffolding, hoarding or any other device or apparatus for which a licence must be sought from the County Highway Authority Local Highways Service.
13. The permission hereby granted shall not be construed as authority to carry out any works on the highway or any works that may affect a drainage channel/culvert or water course. The applicant is advised that a Streetworks permit and a Section 278 agreement must be obtained from the Highway Authority before any works are carried out on any footway, footpath, carriageway, verge or other land forming part of the highway. All works on the highway will require a Streetworks permit and an application will need to be submitted to the County Council's Streetworks Team up to 3 months in advance of the intended start date, depending on the scale of the works proposed and the classification of the road. Please see <http://www.surreycc.gov.uk/roads-and-transport/roadpermitsand-licences/the-traffic-management-permit-scheme>. The applicant is also advised that Consent may be required under Section 23 of the Land Drainage Act 1991. Please see www.surreycc.gov.uk/people-and-community/emergency-planning-and-communitysafety/floodingadvice
14. When access is required to be 'completed' before any other operations, the County Highway Authority may agree that surface course material and in some cases edge restraint may be deferred until construction of the development is complete, provided all reasonable care is taken to protect public safety.
15. Cycle parking should be secure, convenient (including not being blocked in a garage for cars

and not being at the far end of a rear garden), accessible, well-lit, well-signed, near the main entrance, by a footpath/hardstanding/driveway and wherever practical, sheltered. It should also be noted that the County Highway Authority would not usually support vertical hanging racks as they are difficult for many people to use and therefore not considered to be policy and Equality Act 2010 compliant. The County Highway Authority's preferred cycle parking is 'Sheffield' type stands, spaced in line with the guidance contained within the Manual for Streets section 8.2.22 or other proprietary forms of covered illuminated, secure cycle storage including the Police approved Secure By Design cycle stores, "bunkers" and two-tier systems where appropriate.

16. The water efficiency standard is the 'optional requirement' detailed in Building Regulations Part G Approved Document (AD) Building Regulations (2015), at Appendix A paragraph A1. The applicant is advised this standard can be achieved through either: (a) using the 'fittings approach' where water fittings are installed as per the table at 2.2, page 7, with a maximum specification of 4/2.6 litre dual flush WC; 8L/min shower, 17L bath, 5L/min basin taps, 6L/min sink taps, 1.25L/place setting dishwasher, 8.17 L/kg washing machine; or (b) using the water efficiency calculation methodology detailed in the AD Part G Appendix A.
17. The applicant is advised that the details of external lighting should comply with the recommendations of the Institution of Lighting Engineers (ILE) 'Guidance Notes for the Reduction of Light Pollution (2011)' similar guidance recognised by the Council. A certificate of compliance signed by a competent person (such as a member of the Institution of Lighting Engineers) should be submitted with the details.
18. The applicant is reminded that it is a criminal offence to intentionally or recklessly disturb, damage or destroy / kill protected species and their habitats under the Wildlife and Countryside Act 1981. The nesting season is normally taken as being from 1st March – 30th September. Should a protected species be found during the course of the works, the applicant should stop work and contact Natural England for further advice on 0845 600 3078.

The Council confirms that in assessing this planning application it has worked with the applicant in a positive and proactive way in line with the requirements of paragraph 38 of the National Planning Policy Framework 2023.

No variation from the deposited plans and particulars will be permitted unless previously authorised by Waverley Borough Council. The permission hereby granted relates only to that which may be necessary under the Town and Country Planning Act 1990. Consent under the Building Regulations may also be necessary.

Please see the following link which details your rights to appeal this decision:
<https://www.gov.uk/appeal-planning-decision>

Building Control is the natural next step following your planning permission success. The team at Waverley Building Control have a reputation for professionalism and delivering a practical, cost effective and competitive service. We are known for being able to forge strong working relationships, capable and experienced in working on large-scale commercial and residential sites and would welcome the opportunity of working with you. Please contact our Business Manager,

Jane Clement (01483 523498 / jane.clement@waverley.gov.uk) for free pre-application advice and ask for a competitive quote.

Date: 8 February 2024

Dear All

A Meeting of the PLANNING COMMITTEE was held on Wednesday, 7 February 2024. The applications for planning permission were determined at the meeting as set out below.

9 WA/2023/01714 - LAND SOUTH EAST OF BINSCOMBE, GODALMING

Erection of 27 dwellings (affordable houses) and associated works including a vehicular cycle and pedestrian accesses open space and landscaping.

Decision

Delegated authority is **GRANTED** to the Executive Head of Planning Development to grant planning permission subject to suggested conditions 1-24, informatives 1-19, amended or additional conditions and the completion of a Section 106 Agreement securing affordable housing and future management of the open space

10 WA/2023/00103 - LAND KNOWN AS 17 FRENHAM ROAD, LOWER BOURNE, FARNHAM, GU9 8HF

Erection of a dwelling with associated works following demolition of original dwelling.

Decision

Subject to the completion of an appropriate legal agreement to secure the financial contributions towards the ongoing maintenance and enhancement of Farnham Park; and subject to conditions 1-14 and informatives 1-5, and following consultation with Councillor Cockburn, outline planning permission is **GRANTED**.

11 WA/2022/01984 - UNITS 1 - 5 HOOKSTILE LANE, FARNHAM, GU9 8LG

Outline application for up to 7 dwellings (no more than 1,000 sq m of floorspace) with vehicular access off Hookstile Lane, with some matters reserved (Landscaping).

Date: Date Not Specified

Dear All

A Meeting of the PLANNING COMMITTEE was held on Wednesday, 23 August 2023.
The applications for planning permission were determined at the meeting as set out below.

- 7 WA/2022/02194 - LAND AT HURST FARM CHAPEL LANE GODALMING GU8 5HU

The Committee resolved that permission be GRANTED subject to conditions.

- 7 WA/2023/00905 - WEY COURT EAST UNION ROAD FARNHAM GU9 7PT

The Committee resolved that permission be GRANTED subject to conditions.
